We have been so highly complimented on the following
Introductory remarks that we reproduce them
From last Season Catalogue.

INTRODUCTORY

WITHOUT any bluster or exaggerated talk embellished with big I's and flaring red pictures, we come to you again with our seed Annual, thanking you for 25 or 30 years' patronage, soliciting a continuance of the same.

As true and experienced practical Seedsmen, for over a quarter century, we have gathered together from our long established growers, a line of seeds that cannot be excelled in quality and adaptability to the **SOUTHERN STATES**, and send them out under their proper name. New names given to well known varieties, is a mistake and a deception perpetrated upon the buyer, and too small a business for an honorable seedsman to engage in. Plant our seeds with the same confidence you eat a meal prepared by your mother and you are not apt to be deceived. The true types under their proper names, improved every year, is our motto.

Respectfully,

MARK W. JOHNSON,

Manager.
